HARVEST

Manual harvest, starting in mid-September, of over-ripened grapes that are left on the vine so that they become fully ripe and high in residual sugars and polyphenols

VINIFICATION

Powerful extraction forces come into play through the use of the traditional wine press to create musts loaded with colour, high dry extracts and intense savoury marine notes. Fermentation in cement, marked by continuous micro-oxygenation, which carries on even after fermentation, preparing the wine for its encounter with alcohol, thus initiating the "process of producing Marsala DOC"
